**RESPONSE TO RESTRICTION REQUIREMENT**

Responsive to the Restriction Requirement, dated June 27, 2002, applicant hereby elects Group I, claims 1-3, drawn to a method of making an unvulcanized waterproof sheet, classified in class 156, subclass 242.

In the Election Requirement, the Examiner states that:

"Inventions I and II are related as process of making and process of using the product. The use as claimed cannot be practiced with a materially different product. Since the product is not allowable, restriction is proper between said method of making and method of using. The product claim will be examined along with the elected invention (MPEP § 806.05 (i))"

Applicant traverses this determination. It is also stated in MPEP § 806.05 (i) that:

"Examiner Note:

This form paragraph is to be used when claims are presented to the product, process of making and process of using where the product claim(s) are not allowable."

The above-stated form paragraph should not be used in the instant case because claims are not presented to product in the application. Thus, the restriction requirement is improper.

The Examiner is encouraged to telephone the undersigned at (503) 222-3613 if it appears that an interview would be helpful in advancing the case.

Respectfully submitted,

MARGER JOHNSON & McCOLLOM, P.C.
